

ISSUES

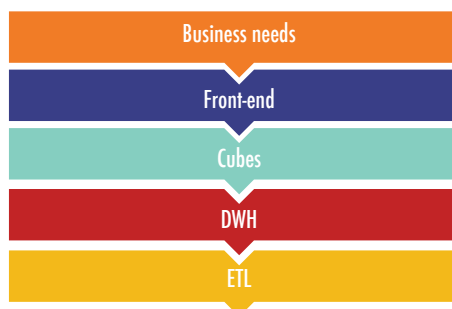

- ◇ Are there performance issues with your BI or data warehouse platform?
- ◇ Is your data warehouse configured in a secure way to protect your data?
- ◇ Is there a "single version of the truth" database for analysis and reporting?
- ◇ Is your BI set-up making the most of the new possibilities offered by Microsoft BI technology?
- ◇ Where is your organisation's BI positioned in the BI maturity model?

Kohera offers a unique service to customers for auditing their Business Intelligence platforms. Giving the right high-performance tool to the right person is a key success factor in getting the most out of a Business Intelligence platform.

THE WORKSHOP

We start by looking at the end-user or business needs and work our way down to check how data is loaded into the data warehouse. We make an evaluation according to our own best practices and the many years of experience we have in implementing BI projects.

WE COVER:

PRACTICAL DETAILS

- ◇ Duration: 2 days
 - 1 day audit on-site
 - 1 day writing report off-site
- ◇ Deliverables: detailed BI Recommendations Document and possible next steps.

PRICE

Fixed price: €2,500.00
